Comunicado

Em obediência à decisão da ADI 5529, proferida em 13 de maio de 2021, pelo Ministro Dias Toffoli, que extinguiu o dispositivo previsto no parágrafo único do art. 40 da LPI, o mesmo não será mais aplicado às patentes concedidas a partir desta data. Isto significa que todas as patentes de invenção concedidas a partir desta data terão vigência de 20 anos e que todas as patentes de modelo de utilidade concedidas a partir desta data terão vigência de 15 anos, contadas a partir da data de depósito.

Além disso, considerando a modulação da decisão publicada em 14 de maio de 2021, que estabelece o efeito *ex tunc*, retroativo, às patentes relacionadas a produtos e processos farmacêuticos e a equipamentos e/ou materiais de uso em saúde, informamos que as patentes destas áreas sofrerão ajustes nos seus prazos de vigência, conforme estabelecido abaixo.

Para fins de ajuste de vigência e de eventual extinção, foram consideradas todas as patentes concedidas com alguma extensão de prazo (nos termos do extinto parágrafo único do Art. 40), que ainda estavam vigentes em 14/05/2021.

As patentes concedidas com extensão de vigência foram divididas em dois grupos: i) patentes que ainda não ultrapassaram 20 anos da data do depósito (ou 15 anos, para modelos de utilidades); ii) patentes de invenção que ultrapassaram 20 anos da data do depósito (ou 15 anos, para modelos de utilidades). Desta forma, considerando estes dois grupos, temos as seguintes situações:

- Patentes relacionadas a produtos e processos farmacêuticos e a equipamentos e/ou materiais de uso em saúde, concedidas com extensão de vigência, mas ainda fora do prazo de extensão em 14/5/2021 serão REPUBLICADAS, para ajuste de vigência;
- Patentes relacionadas a produtos e processos farmacêuticos e a equipamentos e/ou materiais de uso em saúde, concedidas com extensão de vigência e já no prazo de extensão em 4/5/2021 serão REPUBLICADAS, para ajuste de vigência, e EXTINTAS.

Para seleção das patentes relacionadas a produtos e processos farmacêuticos e a equipamentos e/ou materiais de uso em saúde que sofrerão verificação pelo INPI, para fins de republicação da carta patente ou de extinção, foram utilizados os seguintes critérios:

1. Patentes enviadas para análise da ANVISA, para fins de concessão de anuência prévia;
2. Patentes com classificação IPC A61B, A61C, A61D, A61F, A61G, A61H, A61J, A61L, A61M, A61N; H05G (tecnologias associadas à medicina segundo a OMPI);
3. Patentes com classificação IPC A61K/6, C12Q/1, G01N/33, G16H;
4. Patentes com decisão de ação judicial publicada (despacho 19.1);
5. Certificados de Adição concedidos.

Na presente RPI está sendo publicada uma LISTA INICIAL contendo 3.341 patentes com concessão de anuência prévia pela ANVISA (despacho 7.5 publicado) que sofrerão correção da data de vigência, através da retificação da carta patente, e eventual extinção, para os casos em que o prazo de extensão da vigência já estiver sendo usufruído.

LISTAS ADICIONAIS serão publicadas nas próximas RPIs, conforme a análise dos casos for sendo concluída pela equipe da DIRPA.
